

SMART meters are scheduled for mass deployment on our homes. They emit high levels of electromagnetic radiation and gather data to share with third parties. SMART METERS are often placed on your home without permission. Here's How to Opt-Out:

## Attach a "Do NOT Install Smart Meter" NOTICE onto your electricity box

Cut out this do not install SMART Meter notice or purchase a sticker from our website. Stick onto your meter box. Photograph and record the notice with date, meter numbers and placement. You may also want to consider contacting your electricity provider by sending a letter by registered mail to make sure they don't install one. Opt-out if your state allows you to do so.

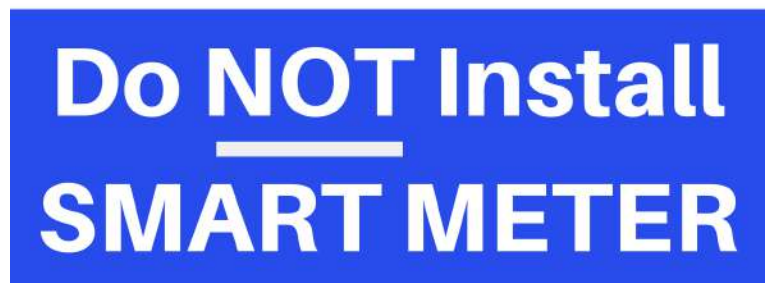

ACCOUNT HOLDER CONTACT INFO:

DATE:

The Account Holder hereby REMOVES IMPLIED CONSENT for the installation of any SMART METERS, or other data transmission equipment at this property. This is a formally recorded

### LAWFUL NOTICE

If you are in any doubt, consult the account holder directly before taking any further action. The meter's number(s) and placing of this notice have been RECORDED.

## Exercise Your Right To Avoid Exposure

If your electricity company has already installed a SMART meter on your home, contact them by registered mail and demand a standard meter be installed instead or get them to disable the wireless transmitter. This may incur a monthly fee.

## Shield Yourself

Consider installing a SMART meter shield or paint the wall behind the smart meter with EMF blocking paint.

## Protect Your Sleep

If the SMART meter is installed outside on a bedroom wall, make sure the head of your bed is not up against that wall - or consider changing bedrooms altogether!

### AGL SMART Meter
