

Info Pack for School Officials

- EMF Safe Schools: Protecting Children in the Digital Age
https://www.youtube.com/watch?v=EO61y_hedCM&t=178s
Dr Mary Redmayne – Discusses health effects and a child’s vulnerability.
Barrister Raymond Broomhall – Examines legal liabilities and a school’s duty of care.
Tim Sawyer - Radiation expert explores ways to reduce exposure in the classroom.
- SEEN Solutions– How to Create an EMF Safe School
<https://www.seen.org.au/solutions/emf-safe-schools/>
- Upper Sturt Primary School Policies – Wi-Fi And Wireless Devices
<https://www.uppersturtps.sa.edu.au/wp-content/uploads/2017/12/USPS-WIFI-POLICY.pdf>
- Letters from Several Doctors Warning of Wi-Fi Use in Schools
<https://dhs.592.myftpupload.com/wp-content/uploads/2020/02/Doctor-Letters-on-Wi-Fi-In-School-Full-Compilation.pdf>
- Links to the Latest Scientific Studies Demonstrating Harm to Children
<https://www.seen.org.au/research/emf-studies/#children>

Exposure Limits: The Underestimation of Absorbed Cell Phone Radiation, Especially in Children
<https://pubmed.ncbi.nlm.nih.gov/21999884/>

Wireless Device Use and Health Symptoms in Children
<https://pubmed.ncbi.nlm.nih.gov/25115529/>

A five year old absorbs 60% more wireless radiation than an adult
<https://pubmed.ncbi.nlm.nih.gov/17178592/>

Genetic damage caused by exposure within current guidelines may not only damage the exposed child, but also their offspring.
<https://pubmed.ncbi.nlm.nih.gov/9261543/>

Students attending schools with high RF-EMF exposures had delayed fine and gross motor skills, spatial working memory and attention difficulties
<https://pubmed.ncbi.nlm.nih.gov/30526242/>
- The WHO/International Agency for Research on Cancer (IARC) has classified radio frequency electromagnetic fields as possibly carcinogenic to humans (Group 2B), based on an increased risk for glioma, a malignant type of brain cancer, associated with wireless phone use.
https://www.iarc.fr/wp-content/uploads/2018/07/pr208_E.pdf
- Extremely low-frequency magnetic fields are also classified as possibly carcinogenic to humans (Group 2B) based on studies that have linked 300-400nT with doubling the chance of childhood leukemia IARC Summary of Data Reported and Evaluation:
<https://www.home-biology.com/images/emfsafetylimits/IARC-MONOGRAPHS-VOLUME-80.pdf>
